9.12.010 Purpose, intent and scope of provisions – Zoning defined.

Zoning is a legislative act involving police power asserted in the interests of the public health, safety and general welfare. The zoning process includes the creation and modification of the comprehensive zoning law which establishes designated zones with permitted uses and regulations, as well as the comprehensive and uniform application of said zoning regulations by the classification and reclassification of property into designated zones. It is the purpose of the council to provide a zoning procedure which will offer a clear and definite guide to property owners seeking zoning adjustments. It is intended that these procedures will protect the public welfare and sound community planning and assure the maximum degree of protection for individual property rights (Ord. 1212 § 1, 1969; prior code § 33.1201(1)).

9.12.020 Authorization for requirements.

Whenever the public necessity, convenience, general welfare or good zoning practice justifies such action, and in substantial conformance with the general plan of the city, and after due consideration and report on same by the planning commission, the city council may, by ordinance, create, amend, supplement or change the uses and regulations of the comprehensive zoning law or include or place any property within the city into any zone as created and defined in this title. The procedure for adopting such ordinances may be noticed by a resolution of intention of the planning commission, or of the council, or by an affirmed application of one or more of the owners or parties having a legal interest in the property to be affected by the proposed action (Ord. 1212 § 1, 1969; prior code § 33.1201(2)).

9.12.030 Rezoning – Application required – Filing fee.

Applications for any change in zone boundaries or classification or reclassification of zones made by one or more owners or parties of interest in the property within the area to be affected by the proposed action shall be filed with the development services director-of-planning, accompanied by such data and information which would insure a full presentation of the facts and circumstances to justify the reasonableness of the proposed action. Said application shall be in a form as approved by the development services director-planning commission and shall be affirmed by the applicant. Each application shall be accompanied by the required filing fee(s) (Ord. 2506 § 1, 1992; Ord. 1854 § 3, 1979; Ord. 1813 § 1, 1978; Ord. 1371 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1201(3)).

19.12.040 Setback lines – Establishment and change procedure.

In those cases where setback lines have not been established or where they are established by subdivision maps or regulations of a particular zone or as shown on the official line map, said lines may be so established or changed by the adoption of an ordinance in accordance with the procedures set forth in CVMC 19.12.030 for a change of zoning (Ord. 1214 § 1, 1969; Ord. 1212 § 1, 1969; prior code § 33.120(4)).

19.12.050 Modifying districts – Establishment or attachment procedure.

The procedure for the establishment or attachment of a modifying district shall be the same as the zone change procedure and shall be subject to the conditions as required for said modifying district (See Chapter 19.56 CVMC.) (Ord. 1364 § 1, 1971; prior code § 33.1201(5)).

19.12.060 Hearings – Required when.

Upon the filing of an application or the adoption of a resolution by the planning commission or city council, the matter shall be set for public hearing before the commission by the development services director-of-planning. (Ord. 1212 § 1, 1969; prior code § 33.1202)

19.12.070 Hearings – Notice required – Methods and additional contents of notice.

Notices of the time, place and purpose of such hearing shall be given in the following manner:

A. By at least one publication in a newspaper of general circulation in the city as provided in the Charter, not less than 10 days prior to the date set for hearing;

B. By mailing a postal card or letter to all of the owners of property within 5300 feet of the exterior boundary of the property involved, as well as the owner of the subject property, said owners being established for this purpose by an examination of the assessment records held in the office of the city clerk; provided, however, that in such cases where the ownership has recently changed and such knowledge is available to the development services director-of-planning, notice shall also be sent in this manner to the current occupants of said property. The notice boundary may be increased at the discretion of the development services director; or

C. In certain instances where mailed notice of hearing is deemed to be impractical, notice may be effected by posting upon the subject property, and within the area of the subject property, a notice bearing the same information as contained in the notice to be mailed. Said notice shall be mailed or posted at least 10 days prior to the date set for the public hearing, and the development services director-of-planning or his authorized representative shall sign an affidavit of mailing to be held in the record. It is further provided that no defect or irregularity in the giving of such notice shall invalidate the public hearing if said interested parties receive actual notice by any other means and are aware of the matter to be considered at the public hearing.

~~Where application is made for a change of classification or change of boundaries or a variance or for a conditional use permit, the director of planning or the planning commission shall have the discretion to include in notice of the hearing on such application notice that the planning commission will consider classification of other than that for which application is made and/or additional properties and/or uses.~~

~~D. Notices shall be mailed to any individuals who have requested in writing to be provided public notices. A fee, in the amount as presently designated or as may be in the future amended in the master fee schedule, shall accompany each request (Ord. 1212 § 1, 1969; prior code § 33.1202(A)).~~

19.12.080 Hearings – Notice required – Contents.

The notice shall contain the following information:

A. The boundaries, either by diagram, plat or brief description, of the area proposed to be zoned;

B. The zone into which said area is sought to be placed;

C. ~~A statement that the planning commission reserves the right to make any of the following recommendations to the city council:~~

~~1. That said property be placed in the zone proposed in the notice,~~

~~2. That the property not be rezoned, or~~

~~3. That the property be placed in any other more restrictive zone described and defined in this title, which, in the opinion of the planning commission, best serves the public interest;~~

~~CD The date, time and place of hearing before the planning commission;~~

~~DE. A statement that any property owner may appear and be heard before said planning commission.~~

~~Mailing of notices shall not be required for establishment or amendment of comprehensive zoning laws. (Ord. 1212 § 1, 1969; prior code § 33.1202(B))~~

19.12.090 Commission -- Authorization of actions and determination of restrictiveness of zones.

If, from the facts presented, the commission finds that the public necessity, convenience, general welfare or good zoning practice requires the adoption or modification of a portion of the comprehensive zoning law or the classification or reclassification of property to any zone, the commission may recommend, by the affirmative vote of not less than a majority of the total membership of the commission, by resolution, the adoption of an ordinance by the city council adopting or modifying a comprehensive zoning law, or classifying or reclassifying property into particular zones. The commission may recommend the inclusion of property in particular zones as requested by the applicant, or the inclusion of the property into any other more restrictive zone as defined and classified in this title, or into any of the commercial zones which are equally restrictive. For the purpose of determining the restrictiveness of zones, the order in which a zone appears in this title shall govern: the lower the number of the

section, the more restrictive the zone is in relation to other zones established by this title. If such required findings cannot be made, the commission shall deny the application. (Ord. 1212 § 1, 1969; prior code § 33.1203)

19.12.100 Commission – Recommendation ~~Approval~~ actions – Procedure.

~~Once the application is considered by the planning commission approved or a more restrictive zone recommended, the commission shall forward its resolution and the application with a report of its findings to the city clerk who shall cause the matter to be set for hearing before the city council in the same manner as required herein for setting a hearing before the planning commission (Ord. 2374 § 1, 1990; Ord. 1212 § 1, 1969; prior code § 33.1203(1))~~

19.12.110 Commission – Denial actions – Appeal procedure.

~~If an application for change or reclassification or adoption or amendment of the comprehensive zoning law is denied by the commission, the applicant or interested party may, within 10 days of the date of the mailing of the notification of denial, appeal to the city council by written notice of appeal filed with the city clerk. Such appeal shall be filed in duplicate and shall set forth specifically wherein the commission's findings were in error and wherein the public necessity, convenience, welfare or good zoning practice requires such change or reclassification. Upon receipt of such appeal, the city clerk shall set the matter for hearing in the manner prescribed herein, and shall forward the findings of fact of the planning commission to the city council. The city council may, after the public hearing and consideration of the matter, affirm the action of the planning commission or may grant the appeal or a modification thereof by the affirmative vote of not less than a majority of its total membership. (Ord. 2193 § 1, 1987; Ord. 1212 § 1, 1969; prior code § 33.1203(2))~~

19.12.120 Attachment of conditions – Public improvements and precise plan requirements.

A. Neither the planning commission nor the city council may attach any conditions to the zoning of any property except for supplemental zones as provided in this title, and the property owner shall be authorized, without restriction, to use the property for the uses and purposes enumerated in the zone subject only to the regulations of the zone; provided, however, that the commission may recommend or the council may require on its own motion that all public improvements, including streets and sidewalks and drainage facilities, as well as necessary dedications deemed needed to serve the uses authorized under the proposed zoning, be installed as a precedent to the zoning in order to prevent the imposition of a burden upon the community and the city created by said uses. The requirement for installation of public improvements may be deferred in accordance with the provisions as set forth in this title.

B. In addition to the requirement for the installation of improvements in necessary dedications, the planning commission or the city council may require that a precise plan be submitted for the development of the property by attaching the P precise plan modifying district to the underlying zone. The precise plan includes, but is not limited to, the location, height, size, and setbacks of buildings or structures, open spaces, signs, and densities. The requirements and circumstances for applying the P precise plan modifying district are set forth in full in CVMC 9.56.040 through 19.56.048. The procedures for submission and approval of a precise plan are set forth in CVMC 19.14.570 through 19.14.580 (Ord. 1632 §§ 1, 3, 975; Ord. 1222 § 1, 1969; prior code § 33 1204).

9.12.130 Interim zoning – Procedure generally – Time limit.

Without following the procedures otherwise required preliminary to the adoption of a zoning ordinance, the city council, to protect the public safety, health and welfare, may adopt, as an urgency measure, an interim ordinance prohibiting any uses which may be in conflict with a contemplated zoning proposal which the city council, planning commission or development services department is considering or studying or intends to study within a reasonable time. Such urgency measure shall require four-fifths vote of the city council for adoption. Such interim ordinance shall be of no further force and effect 90 days after the date of adoption thereof; provided, however, that on said notice, pursuant to CVMC 19.12.060 through 19.12.080, and public hearing, the city council may, by a four-fifths vote, extend such interim ordinance for one year. Not more than two such extensions may be adopted. When such interim ordinance has been adopted, every subsequent ordinance adopted pursuant to this section, covering the whole or part of the same property, shall automatically terminate and be of no further force and effect upon the termination of the first such ordinance or any extension thereof as herein provided. Where a property owner alleges that a moratorium would cause undue hardship on his property to the extent that it would constitute a "taking" of property, the owner may request a public hearing by the city council to determine if the property owner is entitled to relief from the effects of the moratorium. The city council shall hold said public hearing within three weeks from receipt of a written request from the property owner. At the public hearing, the property owner shall set forth all reasons why relief is appropriate and the city council may approve, conditionally approve or deny relief from the restrictions of the interim ordinance. (Ord. 2235 § 2, 1987; Ord. 1212 § 1, 1969; prior code § 33 1205(1)).

9.12.140 Prezoning – Procedure generally – When effective.

The city council may prezone unincorporated territory adjoining the city for the purpose of determining the zoning that will apply to such property in the event of subsequent

annexation to the city. The method of accomplishing this prezoning shall be as provided by CVMC 19.12.010 through 19.12.120. At the time of application for prezoning, the applicant shall deposit with the planning department the required fee(s) in accordance with Section 57004 of the Government Code. Such zoning shall become effective at the same time that the annexation becomes effective. (Ord. 2506 § 1, 1992; Ord. 1212 § 1, 1969; prior code § 33.1205(2)).

19.12.150 Adopted redevelopment plans.

If, and in the event that, the city council adopts or has heretofore adopted a redevelopment plan in accordance with the provisions of Section 33000, et seq., of the Health and Safety Code of the state, and said plan has been adopted in general conformance with the procedures as set forth in this chapter for adoption of zoning ordinances as applicable to particular pieces of land, said redevelopment plan shall constitute the zoning requirements regulating permitted uses and the manner of development of the land and shall supersede any zoning regulations previously adopted regulating such permitted uses and development standards; provided, however, if any aspect or element of development of the property has not been delineated in the redevelopment plan, the regulations contained in the underlying zoning or in the provisions of this title relating to the particular use involved shall be deemed to be applicable. (Ord. 1900 § 1, 1980)

19.14.010 Purpose and intent of provisions.

The purpose of this chapter is to consolidate all of the administrative procedures and requirements for permits, applications, hearings and appeals so as to provide clear instructions to property owners and developers and carry out the purpose of this title. The administrative procedures incorporated herein are the conditional use permit, which is required for those uses specifically permitted within certain zones but allowed only upon finding of certain facts and subject to necessary conditions; the variance, which authorizes the relaxation or variation from rules and regulations established in certain zones subject to the finding of certain facts and necessary conditions; and the planned community district procedures and the planned development procedures. In order to expedite the granting of a variance, a zoning administrator is established herein. The permits which are required and set forth in this chapter are the zoning permit itself, which stipulates the desired use for such permit within the zone where the subject property is located; site plan and architectural approval; the performance standard permit and the home occupation permit.

(Ord. 1212 § 1, 1969; prior code § 33.1301).

(Ord. 1212 § 1, 1969; prior code § 33.1301).

19.14.020 Zoning administrator – Creation of position – Authority.

In order to relieve the planning commission of certain routine functions necessary to the proper administration of this chapter, a zoning administrator is created, who shall be the director of planning and building or his authorized deputy, with such authority as is granted to him by this chapter. (Ord. 2790, 1999; Ord. 1212 § 1, 1969; prior code § 33.1302(A))

In order to relieve the planning commission or chula vista redevelopment corporation, within designated redevelopment project areas, of certain routine functions necessary to the proper administration of this chapter, a zoning administrator is created.

Priority. The development services director or designee shall serve as a zoning administrator. The zoning administrator shall have the authority to consider

applications, preside at hearings, preside at a public hearing and make an impartial decisions on permits, maps, or other matters based on the application, written materials prepared prior to the hearing, and information received at the hearing.

19.14.025 Zoning Administrator – Determination of Similar Uses.

Determination of Similar Uses. The zoning administrator may determine that a proposed use not listed in the zoning district as permitted or conditionally permitted is allowable, if all of the following findings are made:

1. The characteristics of, and activities associated with, the proposed use are equivalent to one or more of the listed uses;

2.(2) The proposed use will be consistent with the purposes of the applicable zoning district; and

3.(3) The proposed use will be consistent with the General Plan and any applicable specific plan.

When the zoning administrator determines that a proposed, but unlisted, use is equivalent to a listed use, the proposed use will be treated in the same manner as the listed use in determining where it is allowed, what permits are required, and what other standards and requirements of this title apply.

19.14.030 Zoning administrator -- Actions authorized without public hearing.

The zoning administrator is authorized to consider and to approve, disapprove or modify applications on the following subjects, and/or issue the following required permits without setting the matter for a public hearing:

A. Conditional Use Permit The zoning administrator shall be empowered to issue conditional use permits, as defined herein, in the following circumstances:

1 Where the use to be permitted does not involve the construction of a new building or other substantial structural improvements on the property in question;

2 Where the use requiring the permit would make use of an existing building and does not involve substantial remodeling thereof;

3 For signs, as defined herein, and temporary tract houses, as limited herein;

4 ~~The zoning administrator is authorized to consider and to approve, deny, or modify applications for conditional use permits for Carnivals and circuses. The zoning administrator shall set the matter for public hearing in the manner provided herein;~~

5 Churches;

19.14.140 Variance – Defined – Purpose and intent – Prohibited when.

The granting of a variance is an administrative act to allow a variation from the strict application of the regulations of the particular zone, and to provide a reasonable use for a parcel of property having unique characteristics by virtue of its size, location, design or topographical features, and its relationship to adjacent or surrounding properties and developments. The purpose of the variance is to bring a particular parcel up to parity with other property in the same zone and vicinity insofar as a reasonable use is concerned, and it is not to grant any special privilege or concession not enjoyed by other properties in the same zone and vicinity. The variance may not be used to correct improper zoning. It is the purpose of this chapter to set forth the findings necessary for such administrative action and to establish a procedure for granting variances. In no case shall a variance be granted to permit a use other than a use permitted in the district in which the subject property is situated. (Ord. 1212 § 1, 1969; prior code § 33.1307)

19.14.150 Variance – Application.

Application shall be made by the property owner to the zoning administrator on a form prescribed for that purpose by the city. (Ord. 1212 § 1, 1969; prior code § 33 1308(A)).

19.14.160 Variance – Fee required.

The fee(s), no part of which shall be refundable, for a variance or modification thereof shall be in the amount(s) identified in the master fee schedule or any amendments thereto the required fee(s). (Ord. 2506 § 1, 1992; Ord. 2011 § 1, 1982; Ord. 1813 § 1, 1978; Ord. 1371 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33 1308(B))

19.14.170 Variance – Accompanying documents required.

The following accompanying maps and drawings are required: maps and drawings required to demonstrate that the conditions set forth in CVMC 19.14.150 through 19.14.230 apply to subject property, together with any other data that the city may require. (Ord. 1212 § 1, 1969; prior code § 33.1308(C)).

19.14.180 Variance – Public hearing – Procedure – Notice required.

Except for applications for limited relief as described in 19.14.030(B), a public hearing for a variance shall be held by the zoning administrator in the following manner:

The zoning administrator shall publish a notice of hearing in a newspaper of general circulation in the city not

less than ~~ten~~^{five} days prior to the date of said hearing. In addition to the notice in the newspaper, a Notice of hearing may ~~also~~ be made, at the option of the zoning administrator or commission, ~~as the case may be~~, by mail to owners of record of surrounding property within 5300 feet of the property for which said variance is requested. ~~The zoning administrator or the planning commission shall have the discretion to include in notice of hearing on such application notice that the planning commission will consider classification of other than that for which application is made and/or additional properties and/or uses.~~ Failure of owners to receive notice of hearing shall in no way affect the validity of action taken. (Ord. 2374 § 2, 1990; Ord. 1212 § 1, 1969; prior code § 33.1308(D))

19.14.190 Variance – Prerequisites for granting.

The zoning administrator shall grant a variance only when the following facts are found:

A. That a hardship peculiar to the property and not created by any act of the owner exists. Said hardship may include practical difficulties in developing the property for the needs of the owner consistent with the regulations of the zone; but in this context, personal, family or financial difficulties; loss of prospective profits; and neighboring violations are not hardships justifying a variance. Further, a previous variance can never have set a precedent, for each case must be considered only on its individual merits;

B. That such variance is necessary for the preservation and enjoyment of substantial property rights possessed by other properties in the same zoning district and in the same vicinity, and that a variance, if granted, would not constitute a special privilege of the recipient not enjoyed by his neighbors;

C. That the authorizing of such variance will not be of substantial detriment to adjacent property, and will not materially impair the purposes of this chapter or the public interest;

D. That the authorizing of such variance will not adversely affect the general plan of the city or the adopted plan of any governmental agency;

E. That in the coastal zone, granting of variances is consistent with and implements the certified local coastal program, and that the granting of such variances does not reduce or in any way adversely affect the requirements to protect coastal resources as specified in the zones included in this title, and that the variance implements the purposes of the zones adopted in implementation of the local coastal program.

In the coastal zone, the zoning administrator or director of planning and building or planning commission may grant a variance to a regulation prescribed by this title only with respect to fences, walls, hedges, screening, or landscaping; site area, width, frontage or depth; front, rear, or side yards; basic floor area; height of structures; or distances between structures, courts or usable open space as the variance was applied for, or in modified form, if, on the basis of the application and the evidence submitted, the zoning administrator or director of planning and building

makes the following findings of fact that establish that the circumstances prescribed in subsections (A) through (C) of this section apply:

1. Because of special circumstances applicable to the property, including size, shape, topography, location, or surroundings, the strict application of the title deprives such property of privileges enjoyed by other property owners in the same land use classification in the coastal zone;

2. That the strict application of the specified provision would deprive the applicant of privileges enjoyed by the owners of other property classified in the same use classification in the coastal zone; and

3. That the granting of the variance will not constitute a grant of special privilege inconsistent with the limitations on other properties in the same use classification in the coastal zone. (Ord. 2790, 1999; Res. 11903, 1985; Ord. 1212 § 1, 1969; prior code § 33.1308 (E)).

19.14.200 Variance – Grounds for denial – Recurrent conditions.

No grant of a variance shall be authorized if the zoning administrator finds that the condition or situation of the specific piece of property, or the intended use of said property for which variance is sought, or one or the other in combination, is so general or recurrent in nature as to make reasonably practicable the formulation of a general regulation for such condition or situation (Ord. 1212 § 1, 1969; prior code § 33.1308(F)).

19.14.210 Variance – Zoning administrator authority – Notice of action.

The zoning administrator may approve said variance, or may grant said variance subject to specified conditions, or may deny said variance. The zoning administrator shall notify the applicant within 10 forthwith of days of action taken. (Ord. 2374 § 2, 1990; Ord. 1212 § 1, 1969; prior code § 33.1308(G)).

19.14.220 Variance – Prerequisite to issuance of zoning permit.

~~Following the issuance of a variance by the zoning administrator, the building inspector shall issue a zoning permit as provided in CVMC 19.14.500 through 19.14.550. (Ord. 1212 § 1, 1969; prior code § 33.1308(H)).~~

19.14.230 Variance – Transferability.

Unless specified otherwise at the time variance is granted, the variance applies to subject property for an indefinite time and is transferable to any future owner of subject property. (Ord. 1212 § 1, 1969; prior code § 33.1308(I)).

19.14.240 Variance – Appeals – Procedure generally – Effect of filing – Public hearing.

The applicant or other interested party may appeal the decision of the zoning administrator to the city council/planning commission, within 10 business days from

THIS PAGE INTENTIONALLY LEFT BLANK

the date on which after said decision was made, filed with the city clerk. Said appeal shall be in writing and filed in triplicate with the development services planning department on forms provided by said department, and shall specify wherein that there was an error in the decision of the zoning administrator was in error and identify the facts and circumstances on which claim of error is based. If an appeal is filed within the time limit specified, it stays proceedings in the matter until a determination is made by the city council planning commission. The city council planning commission shall set the matter for hearing as set forth herein for action by the commission on conditional use permits in CVMC 19.14.080-19.12.070 and 19.12.080 through 19.14.100. The decision of the city council is final.

Where an application for a variance is included in a consolidated hearing and is neither approved nor denied by the planning commission, or chula vista redevelopment corporation for projects within a designated redevelopment project area, due to failure to achieve a majority vote by less than four votes, the applicant shall have the right to either a rehearing at the next planning commission or chula vista redevelopment corporation meeting, whichever is applicable to the project, or an appeal to the city council without payment of additional fees. The choice of alternatives shall be at the discretionary of with the applicant. All other proceedings pertaining to appeals shall continue to apply. (Ord. 2084 § 1, 1984; Ord. 1212 § 1, 1969; prior code § 33.1309 (A)).

19.14.250 Variance Appeals City council action.

The same appeal rights as set forth in CVMC 19.14.110 through 19.14.130 for conditional use permits shall be applicable. (Ord. 1212 § 1, 1969; prior code § 33.1309 (B)).

19.14.260 Conditional use permit or variance – Time limit for utilization – Void when -- Extensions – Validity.

(A.) A permit grants the applicant 36 months to initiate utilization of the permit. A variance or conditional use permit shall be deemed to be utilized if the property owner has substantially changed his position in reliance upon the grant thereof. Evidence of change of position would include completion of construction, substantial work has been performed in reliance of the permit granted, or the use of the property in the manner granted by the permit.

(b) B. Expiration Date. A permit and the rights granted there under shall expire if the applicant has not utilized the permit prior to the expiration date of the permit, including any extensions granted pursuant to subsection (c) of this section.

extension of time contained in a then currently and valid variance or conditional use permit without a public hearing upon written request of the property owner; provided that:

1. ~~that~~ There has been no material change of circumstances since the granting of the variance or conditional use permit; and.

2. Such changes, if any, which when considered in conjunction with the construction or use of property theretofore permitted, would not be injurious to the neighborhood or otherwise detrimental to the public welfare.

D. Stay of Proceedings. If an application for extension of time is filed in a timely manner, the permit shall be automatically extended for a period of 60 calendar days from the expiration date or until a decision on the extension of time has been made, whichever occurs last.

E.(d) Review of Application. An application for an extension of time of a permit shall be reviewed by the development services director to determine whether the proposed development has significantly changed or is in substantial conformance with the approved permit. If the proposed development is in substantial conformance with the approved permit, an extension will be granted and an application for an amendment to the permit will not be required. The extension of time may be granted without notice or public hearing by the original permitting authority, upon making a determination that the findings and conditions of the original approval still apply and if the original permit account balance is in good standing. The burden of proof is on the permittee to establish with substantial evidence that the permit should not expire.

F. Length of Extension. An extension shall not exceed for up to an additional 12 months, from the original expiration date may be granted.

G. Fees. The Fee(s) for an extension of time for a variance or conditional use permit shall be in the amount identified in the master fee schedule or any amendments thereto the required fee(s). (Ord. 2506 § 1, 1992; Ord. 2011 § 1, 1982; Ord. 1212 § 1, 1969; prior code § 33.1310).

Any conditional use permit or zone variance granted by the city as herein provided shall be conditioned upon the privileges granted being utilized within one year after the effective date thereof. A variance or conditional use permit shall be deemed to be utilized if the property owner has substantially changed his position in reliance upon the grant thereof. Evidence of change of position would include completion of construction or any expenditures of money by the property owner preparatory to construction and shall also include the use of the property as granted. If there has been a lapse of work for three months after commencement, the conditional use permit or zone variance shall be void.

The commission may, by resolution, grant an extension of time contained in a currently valid zone variance or conditional use permit without a public hearing upon appeal of the property owner; provided, that there has

~~been no material change of circumstances since the granting of the variance or conditional use permit which would be injurious to the neighborhood or otherwise detrimental to the public welfare. The fee for an extension of time for a variance or conditional use permit shall be the required fee(s). (Ord. 2506 § 1, 1992; Ord. 2011 § 1, 1982; Ord. 1242 § 1, 1969; prior code § 33.1310).~~

19.14.270 Procedures for enforcing conditional use permits and variances.

A. ~~The director of planning and building development services~~ shall investigate evidence presented to him or her to determine whether probable cause exists that any of the following has occurred or is substantially likely to occur regarding any variance or conditional use permit:

1. Fraud. That the variance or conditional use permit approval was obtained by fraud;

2. Non-Use. That the uses and privileges authorized by the variance or conditional use permit have not been initiated in the manner and within the ~~36~~42 months specified in CVMC 19.14.260, and no extension of time has been granted;

3. Abandonment. That the property or any structure thereon subject to the variance or conditional use permit has been abandoned or the use authorized has ceased for a period exceeding 12 months;

4. Violation of Conditions. That the variance or conditional use permit is being or has been exercised contrary to the conditions of said permit, or in violation of any applicable licenses, permits, regulations or laws;

5. Violation of Use. That the variance or conditional use permit is being or has been exercised in a manner other than or in excess of the use-right granted;

6. Public Health, Safety and Welfare. That the use for which the variance or conditional use permit was obtained is being or has been exercised so as to be detrimental to the public health, safety, or general welfare or so as to constitute a public nuisance

If the director of ~~planning and building development services~~ has probable cause to believe that any of the foregoing has occurred or is substantially likely to occur, he/she shall issue a recommendation as to what action should be taken. The recommendation shall be submitted to the individual or body which issued the conditional use permit or variance (hereinafter referred to as "permitting authority")

B. The permitting authority shall hold a public hearing to consider the director of ~~planning and building development services~~ recommendation regarding the conditional use permit or variance.

C. Notice of any public hearing to consider violations of variances and conditional use permits shall be given consistent with the procedures set forth in CVMC 19.12.070. The notice shall contain the following information:

1. The date, time, and place of the public hearing;
2. The identity of the permitting authority;

3. A general explanation of the matter to be considered including the nature of the planning director's recommendation;

4. A general description, either in text or by diagram, of the location of the property.

D. Procedures for Public Hearing. The following procedures shall be followed for public hearings provided for in this section:

1. Recommendation and Reports. The director of ~~development services~~ planning and building's recommendation and any accompanying staff reports, if any, shall be made available to the public prior to commencement of the public hearing provided for herein.

2. Recordation. The public hearing may, at the written request of an interested party, be recorded by either a recording device or stenographer.

3. Testimony. Any witness offering evidence or testimony may be placed under oath and subject to cross-examination at the request of the permitting authority or any party interested in the matter which is the subject of the hearing.

4. Relevancy. Evidence or testimony must be relevant or material to the fact or facts at issue. Any relevant evidence may be admitted if it is the sort of evidence upon which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which would otherwise make improper the admission of such evidence in civil actions. All irrelevant and unduly repetitious evidence may be excluded.

5. Hearsay. Hearsay evidence shall be admissible, but the fact that evidence is hearsay may affect the weight given to the evidence in reaching any determination of any question of fact. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but may not be sufficient by itself to support a decision unless it would be admissible over objection in civil actions.

6. Privileges. The rules regarding privileges shall be effective to the extent they are raised and otherwise required by law to be recognized at the hearing.

7. Procedural Compliance. The hearing need not be conducted under rules relating to evidence. Failure of the permitting authority to strictly enforce rules of evidence and reject certain matters which may be irrelevant or immaterial shall not be sufficient to constitute reversible error on the part of the permitting authority if basic procedural due process is granted to all affected parties and a fair hearing has been conducted. Errors which do not affect substantial rights will be disregarded and no presumption of prejudicial error is raised by the failure to strictly adhere to procedural requirements.

E. The permitting authority, after public hearing, shall make a finding or findings whether any or all of the factors articulated in subsection (A) of this section apply to a conditional use permit or variance.

F. Based on its findings, the permitting authority may do any one or a combination of the following:

1. Maintain the existing variance or conditional use permit without modification;

2. Modify or delete any provision or condition of the variance or conditional use permit;

3. Establish any new condition or provision;

4. Revoke the variance or conditional use permit;

5. Establish any fine or charge which may be paid in lieu of revocation, modification, or imposition of a condition.

G. **Written Decision.** The permitting authority must issue a written decision explaining the factual basis for its decision. Notice of the permitting authority's written decision and action shall be mailed to the affected party and any interested party requesting such notice consistent with CVMC 19.12.070. Said notice shall be filed with the city clerk.

H. **Right of Appeal.** Within 10 business days after the notice of the written decision is filed, unless the date is waived by the appellate body upon a showing of good cause, any interested party who participated in the public hearing or the director of development services ~~planning and building~~ may appeal the written decision to the appropriate appellate body as follows:

2. If the permitting authority is the planning commission or chula vista redevelopment corporation, appeal shall be filed with the city council;

3. If the permitting authority is the city council, no further appeal is available.

I. The appeal shall include a statement of the reasons supporting the appeal, including a demonstration that any issues being raised were raised during the public hearing.

J. After an appeal is filed and accepted, the appellate body shall hold a public hearing consistent with the provisions set forth in this section. The appellate body may, in its discretion, consider additional evidence not presented at the public hearing.

K. The appellate body may reverse, uphold, or modify in any manner a written decision or take any action consistent with this section, after public hearing, upon a written appellate decision. Notice of the written appellate decision shall be mailed to the affected party and any interested party requesting such notice consistent with CVMC 19.12.070. Said notice shall be filed with the city clerk.

L. **Appeal to City Council.** If the appellate body is not the city council, an appeal may be filed by any interested party who participated in the appeal or by the director of planning and building development services who may request an appeal to the city council within 10 business days after the notice of the written appellate decision is filed, unless waived by the city council upon a showing of good cause. The appeal shall include a statement of the reasons supporting the appeal, including a demonstration that any issues being raised were raised during the public hearing.

Any written decision regarding an appeal shall be final on the eleventh day after its filing, unless an appeal is timely filed, if such an appeal is available to an issuing

body, or a waiver is obtained. All written decisions issued by the city council shall become final when notice of such written decision is filed.

N. After the written decision becomes final, it shall be filed with the director of planning and building development services and a copy may be filed with the county recorder of San Diego County. B. Good design character is based upon the suitability of building and site design for its purposes; upon the appropriate use of sound materials; and upon the principles of harmony and proportion in the overall design.

C Good design character is not, in itself, more comprehensive than poor design, and is not dependent upon particular style of design selected

D. The siting of any structure on the property, as compared to the siting of other structures in the immediate neighborhood, shall be considered.

E. The size, location, design, color, number, lighting and materials of all signs and outdoor advertising structures shall be reviewed. No sign shall be approved in excess of the maximum limits set by any ordinance of the city.

(Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.502(H)(2)).

19.22.100 Floor area per unit – Minimum – Purpose and intent.

It is the intent of this section and CVMC 19.24.110 to establish minimum floor areas for dwelling units in the R-E and single-family zones. The purpose of establishing such minimum floor areas is to ensure adequate living space for residents in said zones consistent with the health, safety and general welfare of the public, and to encourage new construction which will be aesthetically pleasing and will constitute an enhancement of the economic value of the immediate neighborhood and the entire community. (Ord. 1212 § 1, 1969; prior code § 33.502(I)(1)).

19.22.110 Floor area per unit – Minimum – Regulatory provisions.

See CVMC 19.58.150 for fencing requirements in the R-E zone. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.502(L)).

19.22.150 Panhandle lots, flag lots, or lots served by an easement – Requirements and conditions.

A. Panhandle lots, flag lots or lots served by an easement proposed within a subdivision shall meet the criteria contained in this section.

B. No lot may be created or developed under this provision which could otherwise be served by a public street unless approved by the director of planning and the city engineer.

C. All development permitted under this provision shall be subject to the regulations and requirements of this title except as otherwise regulated in this section.

D. The division of any property under this provision shall be subject to the regulations of the State Map Act and subdivision ordinance of the city.

E. Not more than four lots served by a private road or easement shall be allowed under this provision unless this restriction is waived by the director of planning or city council.

F. The responsibility for the maintenance and cost of maintenance of all common areas, roads or easements and guest parking areas shall be shared under contractual agreement by the property owner of each lot; this shall be accomplished through the formation of a homeowner's association.

G. Development Criteria.

1. Road and easement widths shall be as follows: one lot, 15 feet; two lots, 20 feet; four lots, 20 feet; five or more lots, 24 feet, in accordance with private street standards as outlined in city's subdivision manual. These widths may be increased if it is determined by the director of planning that a sidewalk is required.

2. All driveways, guest parking areas and roadways shall be paved with a minimum of five inches of portland concrete cement.

3. Each lot shall contain an area not less than the minimum lot size of the underlying zone exclusive of all private roads, common areas and guest parking areas.

4. All on-site utilities shall be undergrounded.

5. Each dwelling shall be connected to a gravity sewer unless otherwise approved by the city engineer.

6. An on-site fire hydrant may be required by the fire department when such is deemed necessary.

7. Guest parking shall be provided as follows:

One lot, one space; two lots, three spaces; three lots, five spaces; four lots, six spaces.

The individual driveways to the garage shall not be construed as meeting the guest parking requirement.

8. Accessory structures shall not be located closer than 10 feet to any dwelling located on adjacent property.

9. The following setbacks shall be observed:

a. Front yard: 15 feet from any access drive and guest parking areas;

b. Any garage facing an access drive shall be a minimum of 22 feet from the drive;

c. Side yard: not less than that required by the underlying zone;

d. Rear yard: not less than that required by the underlying zone upon initial construction.

10. A minimum five-foot-high fence shall be provided on each side of the private drive behind the front setback and on those property lines abutting adjoining

properties. This requirement may be modified or waived by the director of planning if it is found that said fence is not necessary for the protection of the adjoining properties.

11. If the property is graded to create a building pad for each lot, the minimum level area (no slope over five percent) of each pad shall be not less than 80 percent of the minimum lot size of the underlying zone, but in no case shall the minimum area be less than 5,000 square feet. Development proposed on existing natural topography, having an average natural slope of 10 percent or greater, and with less than 10 percent of the site to be graded, shall be subject to the approval of the director of planning, who shall consider whether such development will adversely affect adjacent properties or development.

12. Guest parking areas shall be adequately screened from on-site and adjacent residential properties.

H. No garage conversions shall be permitted.

I. Development shall be subject to site plan and architectural approval of the director of planning. (Ord. 2399 § 1, 1990; Ord. 1868 § 2, 1979).

19.22.160 Floor area ratio.

Construction of dwellings or any remodeling or additions to existing dwellings shall have a floor area ratio (FAR) which limits the maximum building area to 45 percent of the lot area for single-family dwellings or lots of 7,000 square feet or greater and 50 percent of the lot area or 3,150 square feet, whichever is less, for single-family dwellings on lots of less than 7,000 square feet. The floor area ratio calculation shall also include the square footage of patios, garages and other accessory structures present on the lot, but excluding covered patios open on at least two sides and covered porches open on at least one side with a total combined area of 300 square feet or less. For these purposes, an "accessory structure" is defined as any structure which rises four or more feet above finished grade. (Ord. 2559 § 3, 1993; Ord. 2144 § 2, 1986).

19.22.170 Building additions and remodeling.

A. Additions, Greater than 50 Percent. If an addition to a legal existing dwelling unit constitutes an increase of 50 percent or more of the floor area of the original building's square footage, the existing building, including the addition, shall comply with current zoning code standards, except for the current building setback standards which would only apply to the addition.

B. Additions, Less than 50 Percent. If an addition to a legal existing dwelling unit constitutes less than 50 percent of the floor area of the original building's square footage, the existing building may be expanded or altered along the existing horizontal side yard building plane; provided, all of the following criteria are met:

1. The proposed addition is located on a lot that is 60 feet wide or greater at the front setback line; and

The proposed addition maintains a minimum five-foot setback from the side property line; and

3. There is a minimum 10-foot separation between the horizontal building plane of the existing dwelling unit and the addition and the horizontal building plane of an existing residence on an adjacent lot; and

4. There is a minimum six-foot separation between the edge of the proposed addition and any accessory building on-site or on an adjacent property.

C. **Verification of Square Footage.** For purposes of this section, the original dwelling unit's square footage shall be determined by a dimensioned floor and site plan submitted by the applicant to the director of planning for review and verification. (Ord. 2711 § 1, 1997; Ord. 2144 § 2, 1986).

C. Existing developed lots of record (May 23, 1989) in the R-1-7 zone which measure less than 60 feet in width at the front setback may maintain the minimum side yards as noted above for the R-1-5 district for replacements or additions which constitute less than 50 percent of the floor area of the existing dwelling. (Ord. 2311 § 1, 1989; Ord. 1356 § 1, 1971; Ord. 1237 § 1, 1969; Ord. 1212 § 1, 1969; prior code § 33.503(G)).

9.24.080 Standards for application – R-1-7 zone classification.

The R-1-7 zone classification and the minimum dimensions requirement prescribed for said classification shall be considered to be the basic or standard lot size throughout the city; provided, however, that in those areas placed in the R-1-7 classification, if a subdivision map is filed, the minimum lot sizes for 20 percent of the lots created by said subdivision may be reduced to 6,000 square feet, and 10 percent of the lots thus created may be reduced to 5,000 square feet, said lots being subject to those minimum dimensional requirements as set forth hereinabove for such lot areas; provided, that the average lot size of all the lots within the subdivision shall equal a minimum of 7,000 square feet. (Ord. 1500 § 2, 1973; Ord. 1212 § 1, 1969; prior code § 33 503(H)(1))

19.24.090 Standards for application – R-1-5 zone classification

The incorporation of any properties into the R-1-5 classification shall be restricted to those areas deemed most appropriate in accordance with the basic principles set forth herein. Particular attention will be given to the character of the topography involved so as to insure the capability of accommodating lots of this size in a manner that would provide appropriate usable level space for each lot. The filing and approval of a final subdivision map will be required prior to any such R-1-5 zoning becoming

effective, and in addition, a precise plan may be required as provided in CVMC 19.12 120. Said map should insure that the density of the subdivision will be properly related to that existing or proposed in surrounding areas, and that the development will not be incompatible with sound neighborhood density standards, and further, that public facilities will not be overburdened. Open space should be provided or available in the form of natural canyons, green belts, park areas or such other forms which would contribute to better land use and design and accommodate the recreational needs of families who would be living in areas designated for 5,000 square foot minimum lot sizes (Ord. 1212 § 1, 1969; prior code § 33 503 (H)(2))

19.24.100 Setbacks – Requirements generally.

Front and side yard setback requirements for particular zone classifications shall be provided and maintained in accordance with the schedule set forth hereinabove, or in accordance with those specified in the building line map. Those setback requirements as shown on the adopted building line map of the city shall be adhered to in any case where said requirements differ from setbacks established in said schedule. Furthermore, regardless of any minimum side yard requirements as indicated in said schedule, the minimum distance between dwelling units shall be 10 feet, and no dwelling unit may be constructed closer than three feet to any side property line with the exception of the R-1-5 classification which shall maintain a minimum of five feet. Said minimum three-foot dimension shall be measured on a horizontal plane on the level of the

foundation of the dwelling unit. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33 503(I)(1))

19.24.110 Frontage requirements

Every lot in the R-1 zone having an area between 5,000 square feet and 5,999 square feet shall have a minimum lot frontage upon a dedicated street of 50 feet, and every lot having an area of 6,000 square feet or greater shall have a minimum lot frontage upon a dedicated street of 60 feet, unless such lots front upon an approved easement or private road as provided for in this chapter (see CVMC 19.24.170) or unless such lots have been approved by the planning commission or city council pursuant to the provisions of this code or any ordinance which may hereafter be enacted providing for the subdivision of land or the dedication of public streets. (Ord. 1868 § 1, 1979; Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33 503(I)(2)).

19.24.120 Setbacks – Rear yards -- Exceptions permitted when

In the R-1 zone, single-story structures attached to the main building may be located within 10 feet of the rear property line, but shall not be closer than five feet from any retaining wall or toe of slope and said structure shall not occupy more than 30 percent of the rear yard area. Rear yards that have an elevation difference of six feet or more from the adjoining lot or parcel may reduce said 10 feet one foot for every foot over six feet but not more than five feet. Two-story portions of the building shall not be closer than the required rear yard setback. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33 503(I)(3))

19.24.130 Floor area per unit.

Minimum floor area in the R-1 zone shall be as follows:

A. One thousand (1,000) square feet for each dwelling unit containing one bedroom, two bedrooms, or one bedroom and den, family room or any other such room designated for miscellaneous purposes;

B. One thousand two hundred (1,200) square feet for each dwelling unit containing three bedrooms or two bedrooms and den, family room or any other such room designated for miscellaneous purposes;

C. One thousand three hundred (1,300) square feet for each dwelling containing four bedrooms or three bedrooms and den, family room or any other such room designated for miscellaneous purposes, or more.

19.26.010 Purpose and requirements generally.

A. The basic use permitted in the R-2 zone is the lowest density of multiple dwelling units, namely the duplex. It is the purpose of the city council to provide in this zone a density level commensurate with the density allowable under the most restrictive multiple-family zone but to retain the fundamental characteristics to be found in the R-1 zone, i.e., private yards and patios, individual recreational facilities, privately maintained open space, and privacy and self-containment of dwelling units. In order to provide these characteristics, the council hereby establishes a wider range of principal permitted uses to create greater diversity and flexibility of housing concepts; to extend the single-family private dwelling unit amenities to all economic levels; to provide a broader range of lot sizes; and to satisfy the full variety of tastes, needs and desires in housing.

B. It is the full intent of the city council to authorize as principal permitted uses, in addition to the duplex or two-family dwelling units on a single lot, two single-family attached dwelling units on two contiguous lots and dwelling groups as provided in this chapter. The attached single-family dwelling unit concept would permit the reduction of lot sizes to 3,500 square feet and the sale of individual attached single-family dwelling units constructed on such lots to separate ownerships.

C. Authorization for this latter housing concept for either new construction or existing duplex units would require filing of a subdivision or parcel map and provision for the amenities delineated herein as normally associated with the single-family housing concept to be found in the R-1 zone. In addition to site plan and architectural review, landscaping plans, fencing plans, housing floor plans and basic construction designs must be presented for the approval of the planning commission to insure the creation of an overall community environment similar to the R-1 zone.

The owners and developers applying for authorization for said attached single-family dwelling units in the R-2 zone must also provide covenants, conditions and restrictions to insure compatibility in the maintenance, repair or remodeling of the attached dwelling units held under separate ownership. Said deed restrictions shall be subject to the approval of the planning commission and must be recorded concurrently with the recordation of the

single subdivision map or parcel map. The commission may require the establishment of a maintenance district incorporating said conditions and obligations. (Ord. 1356 § 1, 1971; Ord. 1238 § 1, 1969; Ord. 1212 § 1, 1969; prior code § 33.504 (A))

19.26.020 Permitted uses

The following are the principal permitted uses in an R-2 zone:

- A. One single-family dwelling on any lot;
- B. One duplex or two-family dwelling on any lot;
- C. Attached single-family dwelling units;
- D. Dwelling groups, subject to the provisions of CVMC 19.58.140;
- E. Other accessory uses and accessory buildings customarily appurtenant to a permitted use, subject to the requirements of CVMC 19.58.020;

19.26.030 Accessory uses and buildings

The following are the accessory uses permitted in an R-2 zone:

- C. Temporary tract offices and tract signs, subject to the provisions of CVMC 19.58.320 and 19.60.470;
- D. Full-time foster homes as defined in CVMC 19.04.098;

2. **Unit Size.** The maximum size of an accessory dwelling unit on a given lot shall be determined by either the buildable pad area of the lot, or the size of the primary residence according to the following table, so long as the combined living spaces do not exceed the floor area ratio of the underlying zone. The original buildable pad area of a lot may not be increased by more than 20 percent through regrading and/or the use of retaining walls or structures.

Buildable Pad Area	Maximum Gross Floor Area for ASDUs
Less than 5,000 sq. ft.	Not permitted

Height of an accessory second dwelling unit is measured according to the underlying zone.

5. **Development Standard Exceptions.** The accessory second dwelling units shall conform to the underlying zoning and land use development standard requirements in regards to the main or primary residence setbacks with the following exceptions:

a. All second floor units shall be located a minimum of 10 feet from any interior side or rear lot lines.

If the existing driveway is no longer necessary for the access to the converted garage or other required parking, the paving for said driveway shall be removed and appropriate landscaping shall be installed in its place.

d. The access to all required parking shall be from a public street, alley or a recorded access easement. Access from a designated utility easement or similar condition shall not be permitted. For any lot proposing an accessory second dwelling unit and served by a panhandle or easement access, the access must be a minimum 20 feet in width.

f. The Zoning Administrator may approve the use of an existing driveway and curb cut if the primary residence driveway is 50 feet deep or deeper as measured from the back of the public sidewalk to the front of the primary structure, and vehicular ingress and egress does not interfere with the normal use of the driveway for access to the primary residence's required parking.

If this area also serves as the pedestrian access from an accessory second dwelling unit to the street, the paving shall be a minimum 12 feet wide. The required parking space or garage shall be kept clear for parking purposes only. This requirement shall be included in the land use agreement for the proposed accessory second dwelling unit.

8. Existing Nonconforming Situations. D. In any commercial or industrial zone, fences ~~or~~ walls ~~or~~ hedges may be allowed or required to a maximum height of nine feet if it is determined by the zoning administrator that said increase in height is necessary to protect the public health, safety or general welfare and would have no detrimental effect upon the surrounding neighborhood. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.901(B)(14))

19.58.178 Hazardous waste facilities.

A hazardous waste facility as defined in CVMC 19.04.107 may be considered for permitting only within an industrial zone which is also located within a general area identified in Section 5.5 of the public facilities element of the general plan as an area appropriate for the acceptance and consideration of an application for such a facility. A hazardous waste facility may be allowed within a location as indicated above upon the issuance of a conditional use permit, subject to the following standards and guidelines:

A. Purpose and Intent. It is the intent of this section to establish and clarify local requirements and procedures for the review and approval of conditional use permit applications for a hazardous waste facility, consistent with the provisions of Section 25199, et seq., of the California Health and Safety Code (Tanner Act), and with the objectives, policies, and criteria of the public facilities element of the general plan regarding hazardous waste management planning, and the siting and permitting of hazardous waste facilities.

B. Applicability. Any conditional use permit granted for a hazardous waste facility pursuant to CVMC

19.14.060 through 19.14.130 shall comply with the applicable provisions of this section which are supplementary to, and in the event of conflict shall supersede, the regulations set forth in CVMC 19.14.070 through 19.14.130. Subsections (D), (E), (F), (G), (H), (I), (J), and (K) of this section shall apply to all hazardous waste facilities as defined in CVMC 19.04.107, and as herein defined.

C. Definitions.

1. "Hazardous waste" shall mean a waste, or combination of wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may either:

a. Cause or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness

b. Pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

In addition, "hazardous waste" shall include the following:

a. Any waste identified as a hazardous waste by the State Department of Toxic Substances Control

b. Any waste identified as a hazardous waste under the Resource Conservation Recovery Act, as amended, 42 USC Section 6901, et seq., and any regulations promulgated thereunder.

c. Extremely or acutely hazardous waste, which includes any hazardous waste or mixture of hazardous wastes which, if human exposure should occur, may likely result in death, disabling personal injury or serious illness caused by the hazardous waste or mixture of hazardous wastes because of its quantity, concentration, or chemical characteristics.

2. "Hazardous waste facility" means any facility used for the storage, transfer, treatment, recycling, and/or disposal of hazardous wastes or associated residuals as defined in CVMC 19.04.107.

3. "Land use decision" shall mean a discretionary decision of the city concerning a hazardous waste facility project, including the issuance of a land use permit or a conditional use permit, the granting of a variance, the subdivision of property, or the modification of existing property lines pursuant to Title 7 (commencing with Section 65000) of the California Government Code.

D. Notice of Intent To Apply – Application for a Land Use Decision – Completeness of Application.

1. Pursuant to the provisions of State Health and Safety Code Section 25199.7(a) and (b), at least 90 days before filing an application for a conditional use permit for a hazardous waste facility, the applicant shall file with the planning department and with the Office of Permit Assistance in the State Office of Planning and Research a notice of intent (NOI) to make the application. The NOI shall be on

such form as approved by the director of planning, and shall specify the project location to which it applies, and contain a complete description of the nature, function, and scope of the project.

2. The planning department shall provide public notice of the applicant's intent to apply for a conditional use permit, pursuant to the noticing procedure in CVMC 19.12.070, and by posting notices in the location where the proposed project is located.

3. Costs incurred by the city in processing said public notice shall be paid by the project proponent through establishment of a deposit account for such purposes with the planning department at the time the NOI is filed.

4. The NOI shall remain in effect for one year from the date it is filed, unless it is withdrawn by the proponent. However, a NOI is not transferable to a location other than that specified in the NOI, and in such instance the proponent proposes to change the project location, a new NOI shall be prepared, and the procedure shall begin again for the new location.

5. Within 30 days of the filing of the NOI, the applicant shall schedule a preapplication conference with the planning department to be held not later than 45 days thereafter, at which time the applicant and the planning department shall discuss information and materials necessary to evaluate the application. Within 30 days after this meeting, the director of planning shall inform the applicant, in writing, of all submittals necessary in order to deem the conditional use permit application complete.

6. The applicant may not file an application for a conditional use permit unless the applicant has first complied with the above items, and presented the required application fee. Furthermore, said application shall not be considered and acted upon until it is deemed complete as provided by CVMC 19.14.070, and until all materials necessary to evaluate the application as set forth by the director of planning pursuant to subsection (D)(5) of this section have been received and accepted as to content.

7. An application is not deemed to be complete until the planning department notifies the applicant, in writing, that the application is complete. Said notification of completeness, or incompleteness, shall be provided within 30 days of the application submittal, or resubmittal, as applicable. After an application is determined to be complete, the planning department may request additional information where necessary to clarify, modify, or supplement previously submitted materials, or where resulting from conditions which were not known, and could not reasonably have been known, at the time the application was received.

8. The planning department shall notify the Office of Permit Assistance in the State Office of Planning and Research within 10 days after an

application for a conditional use permit is accepted as complete by the planning department.

E Preapplication Public Meeting

1. Within 90 days after a NOI is filed with the planning department and Office of Permit Assistance in the State Office of Planning and Research pursuant to subsection (D)(1) of this section, the Office of Permit Assistance will, in cooperation with the planning department, convene a public meeting ("preapplication meeting") in the city of Chula Vista for the express purpose of informing the public on the nature, function, and scope of the proposed project and the procedures that are required for approving applications for the project.

2. The city shall arrange a meeting location in a public facility near the proposed project site, and shall give notice of said meeting pursuant to the noticing procedures in CVMC 19.12.070 and by posting at the proposed project site.

3. All affected agencies, including, but not limited to, the State Department of Health Services/ Toxic Substance Control Program, regional water quality control board, county department of health services – hazardous materials management division, and the air pollution control district, shall send a representative who will explain to the public their agency's procedures for approving permit applications for the project, and outline the public's opportunities for review and comment on those applications.

F Local Assessment Committee – Formation and Role

1. At any time after filing of the NOI, but not later than 30 days after an application for a land use decision has been accepted as complete, the city council shall appoint a seven member local assessment committee (LAC) to advise the city in considering the hazardous waste facility proposal.

2. The membership of the LAC shall be broadly constituted to reflect the makeup of the city, and shall include three representatives of the city at large, two representatives of environmental or public interest groups, and two representatives of affected businesses and industries. Members of the LAC shall have no direct financial interest, as defined in Section 87103 of the California Government Code, in the proposed project.

3. The LAC is solely an advisory committee, and is not empowered with any decision-making authority relative to the proposed project, nor with the legal standing to assert specific project conditions. Rather, the LAC provides a mechanism for direct input on matters of concern to the general public into the environmental review process, and presents the opportunity for framing questions that should be addressed in that process, as well as in seeing that these questions are addressed as early in the process as possible.

4. As such, the LAC shall, within the time period prescribed by the city council, advise the city of the terms and conditions under which the proposed hazardous waste facility project may be acceptable to the community, as follows:

a. Adopt rules and procedures which are necessary to perform its duties

b. Enter into a dialogue with the project proponent to reach an understanding on:

i. The suggested terms, provisions and conditions for project approval and facility operation which would ensure protection of public health, safety and welfare, and the environment of the city of Chula Vista and adjacent communities, and

ii. The special benefits and remuneration the proponent will provide the city as compensation for all local costs and impacts associated with the facility and its operation. Such discussions shall address fair share concepts as set forth in Section 5.5 of the general plan public facilities element, including the consideration of establishing intergovernmental agreements, and/or other compensation and incentive programs.

Said dialogue shall be responsive to the issues and concerns identified at the meeting described in subsection (G)(1) of this section.

c. With regard to subsection (F)(4)(b) of this section, any resulting proposed mitigation measures not already defined in the environmental review or permitting process would be subject to the negotiation process with the proponent, with the negotiation results forwarded as recommended terms of approval to the planning commission and city council.

d. Represent generally, in meetings with the project applicant, the interests of the residents of the city of Chula Vista and the interests of adjacent communities, as principally made known through the post-application meeting.

e. Receive and expend, subject to the approval of the city manager and authorization of the city council, any technical assistance grants made available as described in subsection (J) of this section.

f. Advise the planning department, planning commission, and the city council of the terms, provisions, and conditions for project approval which have been successfully negotiated by the committee and the proponent, and any additional information which the committee deems appropriate. The planning department, planning commission, and city council may use this advice for their independent consideration of the project.

5. The city shall allocate staff resources to assist the LAC in performing its duties, and the project proponent shall be responsible to pay the city's costs in establishing, convening, and staffing the LAC, through establishment of a deposit account

for such purposes with the planning department at the time of filing an application for a land use decision.

6. The LAC shall cease to exist after final administrative action by state and local agencies has been taken on the permit applications for the project for which the committee was convened.

G. Notice of Permit Application – Post-Application Meeting.

1. Within 60 days after receiving the notice of a complete application as required by subsection (D)(8) of this section, the Office of Permit Assistance in the State Office of Planning and Research will convene a public meeting ("post-application meeting") in the city of Chula Vista of the lead and responsible agencies for the project, the proponent, the LAC, and the interested public for the purpose of determining the issues which concern the agencies that are required to approve the project, and the issues which concern the public. The planning department shall provide notice to the public of the date, time, and place of the meeting.

2. The issues of concern raised at the post-application meeting must include all environmental and permitting issues which will need to be addressed in the environmental document to ensure the document's adequacy in supporting the actions of all permitting and responsible agencies for the project.

3. The post-application meeting should be held as soon as an environmental initial study or notice of preparation is available for review and comment, so that adequate opportunity is provided for meeting input to be employed in the scoping of subsequent environmental review activities.

H. Environmental and Health Risk Assessments

1. All hazardous waste facility proposals shall be required to undergo an environmental review and health risk assessment regardless of facility type, size, or proximity to populations or immobile populations.

2. As hazardous waste facilities may vary greatly in their potential public health and safety, and environmental risks, the depth and breadth of environmental review and health risk assessments must be tailored on a case-by-case basis.

3. The environmental review and health risk assessment shall serve as the primary vehicles for identifying community and involved agency concerns, and providing data to be used by the LAC and the city in negotiating project conditions. As such, within 30 days following the post-application meeting, the city shall:

a. Create an ad hoc technical committee to advise the city and the LAC on technical issues regarding the scoping and preparation of the environmental review and health risk assessment. The membership should consist of staff from each of the involved permitting or responsible agencies, an

epidemiologist, a toxicologist, and any other technical experts deemed necessary or desirable.

b. Convene a meeting of involved city staff, the environmental document preparer, the LAC, the ad hoc technical committee, and the project proponent to establish the scope and content for the environmental document and health risk assessment, and the need for any other technical studies. The city council shall review the meeting outcome, and approve a final scope for the environmental review and health risk assessment prior to the commencement of work.

4. A traffic/transportation study shall be required as part of the environmental review for all hazardous waste facility proposals, and at minimum shall account for all factors addressed under the safe transportation siting criteria contained in Section 5.5 of the public facilities element of the city general plan.

5. Upon selection of a reasonable range of project alternatives under the California Environmental Quality Act, Public Resources Code Section 21000, et seq., the city, upon the advice of the LAC and ad hoc technical committee, shall establish a preferred hierarchy among those alternatives for the purpose of determining the level of qualitative and quantitative analysis that should be performed for the health risk assessment on those alternatives. In determining this preferred hierarchy and associated level of health risk assessment, consideration shall be given to the relative feasibility of each alternative to attain the stated project objectives, and the relative merits of each alternative.

6. The health risk assessment shall serve as an evaluative and decision-making tool, and shall not be construed as providing definitive answers regarding facility siting.

7. The ad hoc technical committee shall remain intact to assist, as requested, the city and the LAC in the evaluation of the final health risk assessment and any technical studies to determine acceptable levels of risk, and/or to determine the extent and type of related conditions and mitigation measures which should be applied to the project.

8. The LAC shall not finalize its recommendations for forwarding for planning commission and city council consideration until after the public review period for the draft environmental document has closed, and the LAC has had sufficient time to review any comments received.

9. Any costs associated to the formation or work of the ad hoc technical committee, in addition to any other consultant(s) the LAC deems necessary, including costs incurred in the preparation of any technical studies, shall be paid for through technical assistance grants as described in subsection (J) of this section.

I. Initial Consistency Determination.

1. At the request of the applicant, the city council shall, within 60 days after the planning

department has determined that an application for a conditional use permit is complete and after a noticed public hearing, issue an initial written determination on whether the proposed project is consistent with both of the following:

a. The applicable provisions of the city general plan and zoning ordinances in effect at the time the application was accepted as complete.

b. The county hazardous waste management plan authorized by Article 3.5 (commencing with Section 25135) of the California Health and Safety Code, if such plan is in effect at the time of application.

2. The planning department shall send to the applicant a copy of the written determination made pursuant to subsection (I)(1) of this section.

3. The determination required by subsection (I)(1) of this section does not prohibit the city from making a different determination when the final decision to approve or deny the conditional use permit is made, if the final determination is based on information which was not considered at the time the initial determination was made.

J Technical Assistance Grants -- Local Assessment Committee Negotiations.

1. Following the post-application meeting, the LAC and the proponent shall meet and confer on the project proposal pursuant to the provisions of subsection (F) of this section.

2. Given that the rules, regulations, and conditions relative to hazardous waste facility projects are extremely technical in nature, as are the associated assessments of potential public health and environmental risks, the LAC may find that it requires assistance and independent advice to adequately review a proposed project and make recommendations. In such instance, the LAC may request technical assistance grants from the city to enable the hiring of a consultant(s) to do any, or all, of the following:

a. Assist the LAC in the review and evaluation of the project application, environmental documents, technical studies, and/or any other documents, materials and information required in connection with the project application.

b. Interpret the potential public health and safety and environmental risks associated with the project, and help to define acceptable mitigation measures to substantially minimize or eliminate those risks.

c. Advise the LAC in its meetings and discussions with the proponent to seek agreement on the terms and conditions under which the project will be acceptable to the community.

3. The proponent shall be required to pay a fee equal to the amount of any technical assistance grant authorized for the LAC. Said fee(s) shall be paid to the city, and deposited in an account to be used

exclusively for the purposes set forth in subsection (J)(2) of this section.

4. If the local assessment committee and the applicant cannot resolve any differences through the meetings, the Office of Permit Assistance in the State Office of Planning and Research may be called upon to mediate disputes.

5. The proponent shall pay one-half of the costs of any mediation process which may be recommended or undertaken by the Office of Permit Assistance in the State Office of Planning and Research. The remaining costs will be paid, upon appropriation by the legislature, from the State General Fund.

K. Additional Findings Required for Hazardous Waste Facilities. Before any conditional use permit for a hazardous waste facility may be granted or modified, in addition to the findings required by CVMC 19.14.080, it shall be found that the proposed facility is in compliance with the following:

1. The general areas policies of Section 5.5 of the public facilities element of the city general plan.

2. The siting criteria as set forth in Section 5.5 of the public facilities element of the city general plan.

3. The fair share principles established in Section 5.5 of the public facilities element of the city general plan.

4. The county of San Diego hazardous waste management plan. (Ord. 2542 § 6, 1993)

19.58.180 Heliports or landing strips for aircraft.

Heliports or landing strips for aircraft, except as part of an approved residential subdivision providing for aircraft landing, taxiing and hangaring, shall be located no closer than 600 feet from any R zone, and shall provide runways so oriented that aircraft landing and taking off do not normally pass below 200 feet directly over dwellings. Proponents shall show that adequate controls or measures will be taken to prevent offensive dust, noise, vibrations or bright lights, and proponents shall show that the field in question conforms to standards of the Federal Aeronautics Authority for the particular class of field. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.901(B)(17)).

19.58.190 Kennels, riding academies and public stables.

Kennels (commercial) for dogs and cats and riding academies and public stables shall be located not less than 200 feet from any adjoining zone which prohibits such uses; shall provide automobile and truck ingress and egress; shall provide parking and loading spaces so designed as to minimize traffic hazard and congestion; and the proponent shall show that odor, dust, noise or drainage shall not constitute a nuisance or a hazard to adjoining property or uses.

(Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.901(B)(18))

19.58.200 Labor camps.

No labor camp structure shall be located closer than 20 feet from any property line, and not closer than 50 feet from the front lot line. An application to establish a recreational vehicle (RV) storage yard (storage area for motorhomes, camping trailers, boats and other recreation equipment) shall address the following issues: (1) height limit for stored items, (2) screening (landscaping and fencing), (3) surfacing, (4) access to the site, (5) office facilities, (6) customer parking, (7) lighting, (8) hours of operation, (9) security, (10) signing, (11) surrounding land uses and structures. The application shall also be accompanied by a comprehensive list of items which would be eligible for storage. Any subsequent additions to the list shall be subject to the approval of the development services director of planning and building.

The approval of an RV storage yard judged by the commission or chula vista redevelopment corporation if located within a designated redevelopment project area, to represent an interim use of land based upon zoning, development patterns, and/or pending plans in the area shall be subject to a review and report filed each year by the owner with the city zoning administrator. Failure to file the report or abide by the conditions of approval shall cause the matter to be set for a rehearing before the commission or chula vista redevelopment corporation if located within a designated redevelopment project area, to consider revocation of the permit or other appropriate corrective action. Permits for interim RV storage yards shall be granted for a maximum period of five years with extensions subject to rehearing before the commission or chula vista redevelopment corporation if located within a designated redevelopment project area. (Ord. 2790, 1999; Ord. 2169 § 2, 1986).

19.58.390 Senior housing development.

Pursuant to CVMC 19.54.020, housing developments for seniors, as defined in CVMC 19.04.201, may be allowed in any zone except the R-1, R-2, C-V, C-T and industrial zones. Because the residents of such development have dwelling characteristics which differ from those of families and younger persons, it is not appropriate to apply all of the normal zoning standards thereto. Accordingly, pursuant to the processing of a conditional use permit for such developments, as required by CVMC 19.54.020(P), the planning commission, or chula vista redevelopment corporation if project is within a designated redevelopment project area, and city council may make exceptions to the density, off-street parking, minimum unit size, open space, and such other requirements as may be appropriate. The planning commission and city council may also adjust required setbacks, building height, and yard areas as

19.58.410 Prohibition of flashing lights.

Lights in view of any public street of adjoining properties used to convey the effect of movement are prohibited. Intermittent or variable intensity lights or flashing lights are prohibited, with the exception of holiday lights during the month of December. (Ord. 2353 § 1, 1990)

19.58.420 Water distribution facilities.

Water distribution facilities shall be limited by permit in their scope of activities and operations to a level commensurate with the nature and character of the surrounding area. Permits shall be further limited to a duration of six months, subject to zoning administrator extension of not to exceed one additional year, in six-month increments, as

necessary to meet a continuing water state of emergency. Permits shall be expressly conditioned to expire automatically upon the effective date that the metropolitan water district declares that the drought severity falls below Stage VI of its incremental interruption and conservation plan. (Ord. 2449 § 2, 1991).

19.58.430 Liquor Stores in the CN zone.

Establishments that include the sale of alcoholic beverages for off-site use or consumption may be allowed in the C-N zone upon issuance of a conditional use permit. The zoning administrator shall hold a public hearing in accordance with CVMC 19.14.060 through 19.14.090 upon giving notice thereof in accordance with CVMC 19.12.070 and 19.12.080. A conditional use permit shall not be granted unless the zoning administrator or other issuing authority finds in his or her sole discretion, and based on substantial evidence in view of the entire record, that all of the facts required by CVMC 19.14.080 exist, and that approval of the permit will not result in an overconcentration of such facilities. Overconcentration may be found to exist based on (a) the number and location of existing facilities; (b) compliance with State Alcohol Beverage Control overconcentration standards in effect at the time of project consideration; (c) the impact of the proposed facility on crime; and (d) the impact of the proposed facility on traffic volume and traffic flow. The police department or other appropriate city departments may provide evidence at the hearing. A permit to operate may be restricted by any reasonable conditions including, but not limited to, limitations on hours of operation.

The city council shall be informed of the decision on each such permit by the city clerk when the decision is filed in accordance with CVMC 19.14.090. The decision of the zoning administrator may be appealed.

Such appeal shall be directed to the city council and must be filed within 10 business days after the decision is made, as provided in CVMC 19.14.100. If appealed within the time limit, said appeal shall be considered in a public hearing conducted by the city council, in the same manner as other appeals pursuant to CVMC 19.14.120 and 19.14.130; except, that the city council must make the same written findings required of the zoning administrator herein in order to grant the permit.

A. The city council of the city of Chula Vista intends to maintain the zoning regulations of the county of San Diego in the Montgomery area which will be a part of the city of Chula Vista on December 31, 1985. This area is specifically described in the annexation maps as filed with the local agency formation commission and encompasses the area formerly served by the Montgomery Fire Protection District. This chapter shall only apply to the Montgomery area.

B. In the event that conflicts arise as to the provisions of this chapter and any other provisions of the Chula Vista Municipal Code, the latter shall take precedence, except as to those items specifically relating to land use regulation.

C. The establishment, location, expansion or alteration of multiple family dwelling uses, uses subject to major use permits, and commercial or industrial projects or structures shall be subject to design review procedures specified in CVMC 19.14.581 through 19.14.600.

D. In the event that this chapter, any section within this chapter, or any portion of any section in this chapter is held to be invalid by a court of competent jurisdiction, the remainder of this chapter shall be in full force and effect. (Ord. 2142 § 1, 1986; Ord. 2137 § 1, 1985).

F. If in the opinion of the zoning administrator there is a potential for significant traffic problems, the zoning administrator shall request review of the application by the city traffic engineer. The city traffic engineer may impose accessory requirements for the day care permit in these instances to insure maintenance of traffic safety levels within the vicinity of the home.

G. A usable rear yard play area of 1,200 square feet shall be provided. Outdoor play activity shall not be allowed in the front or exterior side yard of the home.

H. Play areas shall be designed and located to reduce the impact of noise on surrounding properties. The zoning administrator may impose reasonable requirements to alleviate noise, including, but not limited to, installation of a six-foot-high block wall around the perimeter of the rear yard. 19.70.014 Large family day care homes within multiple-family zones.

Notwithstanding the provisions of Sections 6156(y), 2104, and 2144, large family day care homes may be permitted for a single-family dwelling within the R-V, R-D, R-M, and R-U residential zones upon issuance of a minor use permit granted by the zoning administrator. (Ord. 2269 § 1, 1988).

Thereafter, the satellite dish antennas shall be subject to immediate abatement via removal or through modification or relocation to comply with the standards of this title.

of the California Beverage Container Recycling and Litter Reduction Act of 1986, shall comply with the following:

A. Reverse vending machines with a combined area of no more than 150 square feet and a height of no more than eight feet total may be permitted as an accessory use subject to site plan approval by the planning department. Reverse vending machines which are placed within an enclosed building occupied by the primary use do not require approval of a site plan.

B. Small collection facilities occupying an area of no more than 300 square feet total may be permitted as an accessory use subject to approval of a minor use permit granted by the zoning administrator.

C. Large collection centers with a combined area of over 300 square feet, but not exceeding the floor area equivalent of a 30-person occupancy load, may be permitted as an accessory or a primary use subject to the approval of a major use permit granted by the planning commission, and with approval of an application for site plan and architectural review by the design review committee.

D. The premises of all recycling collection centers shall be kept free of all litter and debris, and all recyclable articles removed prior to any storage container reaching capacity. 19.70.020 Adoption of county zoning regulations.

For the purpose of regulating the use of land, the height of buildings, and the area of lots, building sites, yard spaces and other matters relating to zoning, the city council of the city of Chula Vista hereby adopts San Diego County Ordinance No. 5281 (New Series), commonly referred to as the "Zoning Ordinance San Diego County" as the zoning ordinance for the Montgomery area as though fully set forth herein. Said ordinance is adopted in its entirety except for Sections 1000 through 1019 and Part 7. (Ord. 2137 § 1, 1985).

19.70.021 Adoption of county ordinance exceptions.

Sections 6799 and 6787(c) of the County Zoning Ordinance are hereby repealed. 19.70.040 Fees.

Notwithstanding any provisions to the contrary in CVMC 19.70.020, the master fee schedule of the city of Chula Vista shall be used to determine the appropriate fee for the processing of zoning applications, land use application and variances. (Ord. 2137 § 1, 1985).

19.70.050 Duties of zoning administrator.

The city council of the city of Chula Vista recognizes that the adoption of the county of San Diego Zoning Ordinance for the Montgomery area will create ambiguities with the zoning regulations for the remainder of the city of Chula Vista. The city council, therefore, authorizes the zoning administrator to use the council's expressed intent for the Montgomery area to resolve these ambiguities in an administrative process. (Ord. 2137 § 1, 1985).

19.62.010 Required when.

There shall be provided, at the time any building or structure is erected or is enlarged or increased in capacity, or any use is established, off-street parking spaces for automobiles in accordance with the requirements herein; provided, however, that when an addition is made to an existing building, only the square feet in the addition need be used in computing the required parking (Ord. 1212 § 1, 1969; prior code § 33.801(A)).

19.62.020 Size and access requirements.

Size and access of off-street parking and loading facilities shall be as follows:

A. No parking area, except for a single-family or duplex residence, may be located so as to require or encourage the backing of automobiles or other vehicles across any street lot line, to affect egress from the places of parking.

B. Access to parking spaces for a single-family dwelling may be not less than nine feet in width throughout and in accordance with engineering specifications as accepted by the planning commission.

C. Driveways used to serve two to four dwelling units shall be not less than 12 feet if the furthest unit is 80 feet or less from the front property line, and a minimum of 15 feet if the distance is over 80 feet long. Driveways used to serve five or more dwelling units shall be not less than 15 feet for one single lane entrance; the combination of two separate driveways (an entrance and an exit) shall be not less than 25 feet; except, that a combined entrance and exit (two-way access) need not exceed 18 feet in width.

Driveways for parking areas serving other than residential units shall be a minimum of 15 feet wide for one-way traffic and 24 feet wide for two-way traffic. The minimum vertical clearance shall be 10 feet to allow for the passage of emergency vehicles, based on minimum standards administered by the city traffic engineer.

E. Tandem parking shall not qualify as required parking unless specifically approved by the planning commission, or chula vista redevelopment corporation for projects within a designated redevelopment project area (Ord. 1212 § 1, 1969; prior code § 33.801(B)).

19.62.030 Floor area defined.

"Floor area," in the case of offices, merchandising or service types of uses, means the gross floor area used or intended to be used by tenants, and including floor area for service to the public as customers, patrons, clients or patients, including areas occupied by fixtures and equipment used for display or sales of merchandise. (Ord. 1212 § 1, 1969; prior code § 33.801(C)).

19.62.040 Alternatives to on-site parking arrangements: Off-site shared parking agreements: on-site shared parking agreements

A. For any new nonresidential use, structure or building, required off-street parking which, due to the size or location of the parcel, cannot be provided on the premises may be provided on other property not more than 200 feet distant by publicly available pedestrian access from said use, structure or building, subject to an off-site shared parking binding agreement with the city as to permanent reservation of said space and access thereto; or if the proposed nonresidential use lies within the boundary of a parking district, off-street parking requirements shall be considered to be met; provided, that any developer of a new commercial building within a parking district, or a developer of a commercial addition to an existing building therein, shall pay the required fee(s).

B. For any new use except single family residential uses in the R-1 zone, shared parking for two or more different land uses on the same site may be approved as part of the discretionary permit, or where no discretionary permit is required, through a building permit subject to the following requirements:

- (1) Shared parking shall be for uses that are located on the same site.
- (2) Shared Parking Analysis Required. Shared parking is based upon the variations in the number of parking spaces needed (parking demand) over the course of the day for each of the proposed uses. The hour in which the highest number of parking spaces is needed (peak parking demand) for the proposed development, determines the minimum number of required off-street parking spaces for the proposed development. The shared parking analysis shall be reviewed and approved by the director of development services and the city engineer.
- (3) Shared parking shall be enforced through a shared parking agreement in a form approved by the City.
- (4) Adequate signage shall be provided for tenants and/or residents which indicate the availability of the facility for patrons of the participating uses.
- (5) Modifications to the structure in which the uses are located or changes in tenant occupancy requires review by the development services director. (Ord. 2506 § 1, 1992; Ord. 1894 § 1, 1980; Ord. 1212 § 1, 1969; prior code § 33.801(D)).

19.62.050 Number of spaces required for designated uses.

In the case of any building, structure or premises, the use of which is not specifically mentioned herein, or in the opinion of the approving authority is not similar to any use found herein, the approving authority may apply a ratio based on a similar existing use not found herein. In computing parking requirements, a resultant fractional space of one-half shall count as a full space.

The number of off-street parking spaces required shall be as set forth in the following:

Businesses or Use and Number of Spaces Required

1. Auctions (See CVMC 19.04.015 and 19.58.055):

At the time of application for a conditional use permit, the applicant shall submit parking information justifying the amount of parking proposed to be provided and the parking ratio. The information must consist of data upon which the approving authority can reasonably base a determination of adequacy, such as expected patronage or a comparison with the patronage of similar uses. Said parking ratio shall range from one space for each 50 square feet of net usable lot area to one space for each 4,000 square feet of net usable lot area.

Note: For purposes of this subsection, "net usable lot area" means the area of the parcel exclusive of setbacks, slopes, easements, required right-of-way dedications or other constraints which would preclude use of the land. If complaints are filed with the city regarding impacts related to off-site parking, the project shall be modified to add additional parking for employees and customers, and/or by reducing the auction and/or storage area, subject to the review and approval of the development services director

of planning and city engineer. Failure to resolve such off-site public parking problems by the owner of the property constitutes grounds for revocation of the conditional use permit.

Where five or more required spaces are provided, each space shall be clearly delineated with paint or other more durable material contrasting in color with the surface to which it is applied. (Ord. 1212 § 1, 1969; prior code § 33.801(F)).

19.62.070 Parking areas – Curbing required when – Specifications.

Off-street parking areas for more than three vehicles shall be provided with a suitable concrete curb or horizontal timber barrier not less than six inches in height, located not less than two feet from any street walkway or alley right-of-way line. All curbs or barriers shall be permanently anchored in a manner satisfactory to the director of public works, to confine vehicles entirely within said premises, except in those cases where a wall is provided on the boundaries of the premises which, in the opinion of the zoning administrator, is of such construction as to suitably protect the adjoining property. (Ord. 1212 § 1, 1969; prior code § 33.801 (F)(1)).

19.62.080 Parking areas – Screening requirements.

Off-street parking areas for more than five vehicles shall be effectively screened by a 10-foot-wide landscaped strip and a masonry wall or fence of acceptable design. Such wall or fence shall be not less than three and one-half feet or more than six feet in height and shall be maintained in good condition without any advertising thereon. The requirements specified herein may be eliminated in whole or in part where, in the opinion of the zoning administrator, such requirements are not necessary for the proper protection of abutting property because of substantial grade differentials, the existence of adequate walls or other equally valid reasons. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.801(F)(2))

19.62.090 Parking areas – Landscaping.

The total parking area shall be landscaped in accordance with the landscape manual of the city. (Ord. 1212 § 1, 1969; prior code § 33 801(F)(3)).

19.62.100a Parking areas – Surfacing requirements – Waiver permitted when.

Any off-street parking areas shall be surfaced in accordance with CVMC 19.62.100b, Surfacing Pavement standards, so as to provide a durable and dustless surface, and shall be so graded and drained as to dispose of all surface water accumulated within the area, and shall be so arranged and marked as to provide the orderly and safe loading or unloading and parking and storage of vehicles. The planning commission or chula vista redevelopment corporation for projects within a designated redevelopment project area, may, by resolution, waive or modify the standards for any use within the agricultural zone, or any use deemed as temporary (operating for a maximum of one year); provided, however, such temporary use shall be done in accordance with the surfacing pavement standards noted in CVMC 19.62.100b (A). (Ord. 2743 § 3, 1998; Ord. 1212 § 1, 1969; prior code § 33 801(F)(4)).

19.62.100b Surfacing Pavement standards for private vehicular areas.

Areas upon private property which are required to be surfaced paved per the various city regulations, or pursuant to conditional approval of the planning commission, or chula vista redevelopment corporation for projects within a designated redevelopment project area, shall be surfaced paved in accordance with the requirements contained herein and with the standard specifications for public works construction and any amendments or supplements thereto, including the San Diego regional supplement amendments and the city of Chula Vista standard special provisions. Such requirements shall apply to all areas to be surfaced paved for the movement, parking or storage of vehicles except as specifically noted

A. Temporary Use (Maximum of One Year). Temporary surfacing pavement shall consist of permeable road base material suitable for light traffic or other intended use two inches of compacted decomposed granite, the top one inch of which has been treated with CRS-2 or CMS-2 asphalt emulsion to form a permeable water-resistant and dust-free wearing surface. The asphalt emulsion shall be applied at such rates or a sufficient number of times to produce the specified wearing surface. A weed killer shall be applied to the entire area to be surfaced paved in accordance with the manufacturer's recommendations.

As an alternative for pavements which will be used exclusively for the movement and parking of heavy trucks, processed miscellaneous base, including recycled asphaltic concrete base, may be substituted for disintegrated granite.

B. Semi-Permanent Use (Maximum of Five Years). Semi-permanent pavement shall consist of two inches of asphaltic concrete pavement with seal coat placed upon

native soil. Asphalt concrete shall be Type III, Class B2 or Class C2, as specified in Section 400-4.3 of the standard specifications for the public works construction; except, that it shall be permissible to use AR-2000 asphalt cement as an alternate to AR-4000 asphalt cement. A seal coat in conformance with Section 302-5.10 of the San Diego regional supplement amendments using an RS-1 or equivalent high viscosity asphalt emulsion shall be applied to the entire paved surface.

Native soil to receive pavement shall be graded, scarified, and compacted to 95 percent minimum relative compaction per ASTM D-1557 to a minimum depth of six inches prior to installation of paving material. A weed killer shall be applied to the entire prepared native soil in accordance with the manufacturer's recommendations.

BC. Permanent Use (for areas less than 5,000 square feet). Permanent pavement for areas less than 5,000 square feet shall consist of a minimum of two inches of asphaltic concrete pavement with seal coat, as described under "semi-permanent use" above, applied over a four-inch-thick Class II aggregate base or better. Aggregate base shall comply with Section 400-2 of the San Diego regional supplement amendments and shall be compacted to 95 percent minimum relative compaction per ASTM D-1557. Native subgrade shall be graded, scarified, and compacted to 95 percent minimum relative compaction per ASTM D-1557 to a minimum depth of six inches prior to application of the asphaltic concrete structural section

Permanent areas less than 5,000 square feet for the storage only of passenger-type vehicles may be surfaced paved as specified under "temporary "semi-permanent use." This provision reduction in structural section shall apply only to the specific storage areas and does not include areas designated for parking or movement of vehicles (Ord. 2743 § 3, 1998).

C. Permanent Use (for areas greater than 5,000 square feet). Permanent pavement for areas greater than 5,000 square feet for private vehicular areas shall comply with the requirements of the National Pollutant Discharge Elimination System (NPDES) Municipal Permit for San Diego Region and the City's Development Storm Water Manual, and shall be constructed of pervious pavements such as permeable unit pavers, or porous asphalt or concrete. If impervious pavements are proposed, the runoff shall be directed to Low Impact Development (LID) or Treatment Control facilities such as vegetated swales or bioretention areas. Such LID and Treatment Control Best Management Practices (BMPs) shall be designed in accordance with acceptable design standards established in the City's Development Storm Water Manual. Pervious pavements, LID features, and Treatment Control BMPs shall be maintained for the life of the project to function as designed to infiltrate, filter, or treat runoff from impervious areas.

19.62.110 Limitation on areas to be used.

No part of any front yard or exterior side yard (i.e., street side of a corner lot) shall be used for off-street parking or access, except as noted in CVMC 10.84.020 and

19.62.150, unless so authorized by the zoning administrator, pursuant to an approved site plan (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.803(B)).

19.62.120 Parking areas – Lighting arrangements.

Lighting used to illuminate any off-street parking area shall be so arranged as to reflect the light away from adjoining premises in any R zone. (Ord. 1212 § 1, 1969; prior code § 33.801(F)(6)).

19.62.130 Waiver or modification of provisions permitted when.

The commission or chula vista redevelopment corporation for projects within a designated redevelopment project area, may, by resolution, waive or modify the provisions as herein set forth, establishing required parking areas for such uses as electrical power generating plants, electrical transformer stations, utility or corporation storage yards or other uses requiring a very limited number of persons as compared to the number of persons required by the usual industry of comparable size expressed in square footage. (Ord. 1212 § 1, 1969; prior code § 33.801(G))

19.62.140 Off-street loading – Number and size of spaces to be maintained.

A. For every building or part thereof having a gross floor of 10,000 square feet or more, which is to be occupied by a commercial or industrial use requiring the receipt of distribution by vehicles of materials or merchandise, there shall be provided and maintained, on the same lot with such building, at least one off-street loading space plus one additional such loading space for each additional 40,000 square feet or major fraction thereof.

B. Each loading space shall be not less than 10 feet in width, 25 feet in length, and 14 feet in height clearance.

C. If such space occupies any part of any required yard or court spaces, it may not be located closer than 50 feet to any lot in any R zone, unless enclosed by a masonry wall not less than eight feet in height. (Ord. 1212 § 1, 1969; prior code § 33.802)

19.62.150 Residential parking – Front setback restrictions – Generally.

No required parking spaces or required maneuvering area may be located in the front or exterior setback area (except as noted in CVMC 10.84.020); the total combination of driveways and adjacent parking areas shall not occupy more than 50 percent of the front or exterior side yard. (Ord. 2176 § 6, 1986; Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.803(A)).

19.62.160 Residential parking – Front setback restrictions – Exceptions.

In those cases where street improvements are at their ultimate width, the front setback area, for parking

purposes, may be measured from the back of the sidewalk. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.803(B)).

19.62.170 Residential parking – Two-car garage requirement – Intent and purpose.

It is the intent of this section and CVMC 19.62.180 and 19.62.190 to require that all dwelling units in the A, R-E, R-1 and R-2 zones as well as single-family and two-family developments in the P-C zone shall have constructed on the same lot, as a necessary and essential accessory building to the residential use of said lot, a two-car enclosed garage containing a minimum of 400 square feet and minimum dimension of 20 feet. The purpose of said requirement is to provide adequate off-street parking so as to alleviate the congestion on residential streets and space for the necessary storage of materials in an enclosure. The enclosed garage is necessary to protect the general welfare of residential areas by preventing the establishment of parking spaces in an open parking lot situation inappropriate to residential development and the open and disorderly display of gardening equipment, tools, boxes and other materials which would be stored in enclosures to avoid an unsightly appearance. (Ord. 2151 § 1, 1986; Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.803(C)(1)).

19.62.180 Residential parking – Two-car garage requirement – Garage setbacks.

Notwithstanding requirements contained in this chapter, minimum front yard shall be 22 feet from the inside edge of the sidewalk to the door of a garage or structure of a carport in the case of a driveway approximately perpendicular to the front property line. Any garage that has its access from an alley shall be located 25 feet from the opposite side of the alley with a minimum setback of five feet from the alley. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.803(C)(2)).

19.62.190 Residential parking – Procedure for conversion to living purposes – Approval required

Prior to the issuance of a building permit for the conversion of any existing garage or carport for living purposes, the property owner desiring such conversion shall be required to meet the following conditions:

A. A new enclosed two-car garage as set forth in CVMC 19.62.170 shall be provided to replace the garage or carport being converted. Tandem parking as provided in this chapter will not satisfy the parking requirements.

B. All plans for the conversions of existing garages or carports for living purposes, as well as plans for new garages, shall be submitted to the development services planning department for approval by the zoning administrator to insure that the conversion is compatible in design and materials with the existing dwelling. Plans for garage conversions shall show either:

1 The exterior of the garage unchanged; or

2. The exterior of the garage fully altered to match the existing house elevation in colors, materials and trim.

C A filing fee as set forth in the master fee schedule shall accompany each application for a garage conversion (Ord. 2151 § 2, 1986; Ord. 2011 § 1, 1982; Ord. 1669 § 1, 1976; Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.803 (C)(3))

19.62.200 Enforcement of this chapter.

The development services planning and building director, code enforcement officers and other employees designated by the development services planning and building director shall have the authority to enforce this chapter in accordance with the procedures as set forth in Chapters 1.40 and 1.41 CVMC. Any violation of this chapter shall constitute an infraction, and the administrative citation provisions contained in Chapter 1.41 CVMC shall be applicable. (Ord. 2790, 1999; Ord. 2718 § 1, 1998; Ord. 2176 § 7, 1986)

19.64.010 Declaration of policy.

Many nonconforming uses within the city are detrimental to the orderly development of the city and adverse to the general welfare of persons and property, in that said nonconforming uses constitute a special benefit or monopoly. In conformance with good zoning practices, it is the policy of the city that nonconforming uses shall be eliminated as soon as it is economically feasible and equitable to do so. (Ord. 1212 § 1, 1969; prior code § 33.1101 (A)).

19.64.020 Continuance of existing uses.

Except as hereinafter specified, any use, building or structure existing as of July 8, 1969, may be continued, even though such use, building or structure may not conform with the provisions contained herein for the zone in which it is located; provided, however, that this section does not apply to any use, building or structure established in violation of any zoning ordinance previously in effect in Chula Vista, unless said use, building or structure now conforms with the provisions herein.

Except as otherwise provided by law, nothing in this title shall prevent the strengthening or restoring to a safe condition of any part of any building or structure declared unsafe by proper authority. (Ord. 1212 § 1, 1969; prior code § 33.1101 (B)).

19.64.030 Completion of construction started prior to certain date.

A building, structure or part thereof which does not conform to the regulations for the zone in which it is situated, but for which a building permit was issued and construction started prior to July 8, 1969, may be completed in accordance with such plans, providing the work is prosecuted continuously and without delay. Such building shall be deemed to be a nonconforming use and shall thereafter be subject to the regulations set forth herein. (Ord. 1212 § 1, 1969; prior code § 33.1101 (C)).

19.64.040 Existing conditional uses to be considered nonconforming when.

Any use legally existing as of July 8, 1969, which is listed as a conditional use in the zone wherein located, shall be and remain a nonconforming use until a conditional use permit is obtained as provided

in this title. (Ord. 1212 § 1, 1969; prior code § 33.1101(D)).

19.64.050 Enlargement, extension or reconstruction prohibited—Exceptions.

A nonconforming use shall not be enlarged, extended, reconstructed, substituted or structurally altered, except in conformity with the order of a duly constituted authority, unless the use is changed to a use permitted in the zone in which such building or premises is located, and except as set forth in CVMC 19.64.060 through 19.64.180. (Ord. 1212 § 1, 1969; prior code § 33.1102).

19.64.060 Substitution or extension restrictions.

A. When authorized in accordance with the provisions herein, a nonconforming use which is determined by the commission to be of the same or a more desirable nature may be substituted for another nonconforming use.

B. Whenever a nonconforming use has been changed to a conforming use, such use shall not be changed to a nonconforming use thereafter.

C. When authorized by the commission, in accordance with the provisions herein, a building devoted to a nonconforming use may be enlarged or completed upon the same lot or parcel where such completion is necessary and incidental to its use.

(Ord. 1212 § 1, 1969; prior code § 33.1102(A)).

19.64.070 Cessation of use defined—Time limits.

A use shall be deemed to have ceased when it has been discontinued either temporarily or permanently, whether with the intent to abandon said use or not.

A. Cessation of Use of Building Designed for Nonconforming Use. A building or structure which was originally designed for a nonconforming use shall not be put to a nonconforming use again when such use has ceased 12 months or more.

B. Cessation of Use of Building Not Designed for Nonconforming Use. A building or structure which was not originally designed for a nonconforming use shall not be put to a nonconforming use again when such use has ceased for six months or more.

C. Cessation of Use of Nonconforming Use of Land. A nonconforming use of land, not involving any building or structure, except minor structures such as fences, signs and buildings less than 400 square feet in area, shall not be resumed when such use has ceased for six months or more. (Ord. 1212 § 1, 1969; prior code § 33.1102(B)).

19.64.080 Uses subject to mandatory discontinuance.

The following nonconforming uses are illegal and shall be discontinued in Chula Vista after the useful economic value of the principal structures used in

said uses has been realized by the owners of such structures:

A. All nonconforming signs, billboards or commercial advertising structures;

B. All nonconforming uses involving no structure or structures of an assessed value of \$500.00 or less;

C. Use permitted in an I-R or I-L or I zone when nonconforming in any C-N zone;

D. Nonconforming residential uses located in an I-R, I-L or I zone. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1102(C)).

19.64.090 Timing of discontinuance—Generally.

For determination of the time when such uses must be discontinued, the following tests and procedures are established, as set forth in CVMC 19.64.110 through 19.64.160. (Ord. 1295 § 1, 1970; Ord. 1212 § 1, 1969; prior code § 33.1102(D)).

19.64.110 Discontinuance of structures having certain replacement value required—Time limit.

Nonconforming structures having a permit value, or by an appraisal made by the building inspector, of \$500.00 or less, shall be abated in three years from date of notification. (Ord. 1212 § 1, 1969; prior code § 33.1102(D)(2)).

19.64.120 Removal of other uses and structures required—Notification—Time limits.

A. Every nonconforming building in any of the R zones, except residential buildings, churches and schools, which nonconforming building was designed or intended for a use not permitted in the R zone in which it is located, shall be completely removed or altered to structurally conform to the uses permitted in the zone in which it is located, and the use of such building shall be changed to conform with the uses permitted in the zone in which it is located within the times specified in this chapter, upon notice from the planning commission, which time is measured from the date of construction, or from the date of the last transfer of title prior to July 8, 1969, whichever is the lesser.

B. The provisions of this chapter shall also apply to every nonconforming building or use in the industrial zones which is used for, or devoted to, any residential purpose; hospitals (except emergency hospitals); hotels; institutions or homes for the treatment of convalescent persons, alcoholics, the wounded or mentally infirm; lodgingshouses; schools; trailers used for human habitation or trailer camps; and which nonconforming building was designed or intended for a use not permitted in the I zone in which it is located.

C. In no case where the property is improved by structures requiring a building permit shall this period of time be less than 10 years from date of notification by the planning commission, except as provided in subsection (C)(1) of this section. As used in this

section, the designations "Type I building," "Type II building," "Type III building," "Type IV building," and "Type V building" are employed as defined in the building code:

1. Where property is unimproved or is occupied by structures of a type for which the building code does not require a building permit, or any trailer park, five years after receipt of notification from the planning commission;

2. Type IV or Type V buildings (light incombustible frame and wood frame), 15 years;

3. Type I, Type II or Type III buildings (fire resistant, ordinary masonry or heavy timber construction), 25 years.

D. Where more than one type of building has been constructed on the property and such buildings are used as a part of the business conducted on the property, the longest period of time permitted before removal is required for any such building by the provisions of this chapter shall apply to all such buildings.

E. Where buildings have been constructed on the property at different times, and where the abatement period is measured by the date of construction, the date of removal shall be measured from the date of the construction of the building most recently constructed. (Ord. 1212 § 1, 1969; prior code § 33.1102(D)(3)).

19.64.130 Uses not conforming to performance standards—Time limit for conformance.

All uses nonconforming as of July 8, 1969, by reason of noncompliance with performance standards established herein, shall adopt measures necessary to conform therewith within five years of July 8, 1969. (Ord. 1212 § 1, 1969; prior code § 33.1102(D)(4)).

19.64.140 Uses without conditional use permit or subject to fence requirements—Time limit for conformance.

Any use that is not conducted wholly within an enclosed building as required herein and any use that has fencing requirements shall be considered nonconforming if said use has not complied to the requirements of applying for a conditional use permit or conformed to the fencing regulations as notified within one year of notifications and shall be abated in three years from the date of notification. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1102(D)(5)).

19.64.150 Nonresidential structures—Replacement restrictions.

Any nonresidential nonconforming building damaged more than 60 percent of its value, as established by the director of planning and building, at the time of damage by fire, explosion, wind, earthquake, war, riot, or other calamity or act of God,

shall not be restored or reconstructed and used as before such happening; but if less than 60 percent damaged, it may be restored, reconstructed or used as before; provided, that such be initiated within six months and be substantially completed within 12 months of such beginning. (Ord. 2790, 1999; Ord. 2760 § 1, 1998; Ord. 2708, 1997; Ord. 2599 § 2, 1994; Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1102(D)(6)).

19.64.155 Residential—Replacement permitted.

Any residential unit which was legally constructed and is nonconforming with respect to the current zoning and/or density of the property shall be allowed to be reconstructed in the event of any damage or destruction of the existing residential improvements as defined in CVMC 19.64.150; provided, such be initiated within six months and be substantially completed within 12 months of such happening. This allowance shall not apply to industrial-zoned properties. Said reconstruction shall meet all applicable code requirements in place at the time of reconstruction and shall not be built beyond the existing building footprint. (Ord. 2708, 1997; Ord. 2599 § 3, 1994).

19.64.160 Modification of provisions permitted when.

Requirements prohibiting restoration or reconstruction or requiring discontinuance of nonconforming uses may be modified by the planning commission for dwellings located in any R zone or for buildings nonconforming only on the basis of yard or height requirements. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1102(D)(7)).

19.64.170 Repair or alteration permitted when.

Such repairs and maintenance work as required to keep it in sound condition may be made to a nonconforming building or structure; provided, no structural alterations shall be made except such as are required by law or ordinance or authorized as permitted herein by the zoning administrator. (Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1102(E)(1)).

19.64.180 Uses not conforming to setback or height requirements—Alteration or enlargement permitted when.

Any structure that is nonconforming because of setback or height requirements may be altered and/or enlarged by approval of the zoning administrator on the basis that such alteration and/or enlargement shall conform to the regulations herein except as provided for in CVMC 19.22.170. (Ord. 2711 § 2, 1997; Ord. 1356 § 1, 1971; Ord. 1212 § 1, 1969; prior code § 33.1102(E)(2)).

19.64.190 Reconstruction permits. A reconstruction permit may be approved to allow for the reconstruction of a nonresidential nonconforming structure in the event that such building has been damaged or destroyed by fire, explosion, or act of God. Said permit shall allow for reconstruction consistent with the original configuration of the building with the exception that no reconstruction can take place within the city's current right-of-way. The zoning administrator, in accordance with CVMC 19.14.180 and following a noticed public hearing, may approve a reconstruction permit based upon the following findings:

A. The nonconformity of the building was not caused by any action of the building owner.

B. The granting of the reconstruction permit will not cause the reconstruction of a building with a nonconformity which is or will be materially detrimental or injurious to the neighborhood or public welfare based upon factors including, but not limited to, parking, traffic, noise, and incompatible land uses in the immediate surrounding area.

C. The reconstruction does not exceed the existing nonconformity.

D. There are specific site constraints affecting the property which would make conformance with current zoning regulations an undue hardship and burden on the property owner. Such site constraints include, but are not limited to, factors such as minimal street frontage or limited vehicular access to the site.

E. The nonconformity allowed by the permit shall only apply to its current use. Said reconstruction permit shall be conditioned in that any new construction must meet current building and fire codes and not be permitted within the city right-of-way. The director of planning and building may waive certain other current development standards including building setbacks and landscaping regulations based upon hardship and upon the finding they will not cause a detrimental impact to the surrounding area. (Ord. 2760 § 2, 1998).
